# Our Services

## Ocean Freight

As a specialist ocean freight service provider, We offers weekly import and export consolidation services to and from major countries through the world. We focus on offering as many direct services between ports worldwide ensuring minimum cargo handling.

We leverages volume commitments and contracts with various carriers to ensure fixed sailing schedules, multiple departure and arrival options from point to origin till final destination. And most importantly, our relationships with the major carriers keeps our FCL rates low while achieving optimum receiving and closing windows and fast transit times.

## Air Freight

Developed out of the need to provide even faster services for our customers, Our Air Freight products and their customizable options bring added flexibility to your supply chain. Building on our relationship and direct contracts with key airlines, we are providing tailor made services to to and from all key global locations.

Our product scope thereby includes expedited, consolidated, scheduled & charter flight options. In addition, we provide door-to-door delivery & value added services.

## Warehousing

In India, improved service, reduced costs and enhanced performance are the goals of all warehousing and distribution operators. We uses these areas for competitive advantage by focusing on proper planning & continuous improvement. In the wake of increasingly complicated supply chains, We uses our network of warehousing & distribution to control the cost of your business operations.

## Project Cargo

Whether you are building a manufacturing plant, petrochemical plant, power plant, constructions, mining or drilling or any other industry, you will need to procure logistics transportation service to manage your cargo movement. We provides comprehensive range of services including freight management, cargo handling and cargo moving from origin to your final site location.

## Transporation

As inter modal transporter, with the options of integrating multiple modes, We can provide a flexible response to the changing supply chain management requirements and distribution systems. As a registered MTO, We provides efficient rail & road transportation services from & to any place within India.
